

Title: Coffee my Love

[Verse 1]

Rolled out of bed half-dead

Needed that first sip

Opened my eyes in the kitchen

Like a spark hit my lip

My brain was lost in the fog

My hands were dumb and slow

Then came that mug of coffee that I love

And I was ready to go

[Pre-Chorus]

One little pour

And the world gets right

That smell, that grace

Morning turns to light

My name comes back

My feet don't drag

[Chorus]

Coffee is all we need

(hey, coffee is all we need)

Coffee, my love

One hot cup and I can breathe

Coffee is all we need

(yeah, coffee is all we need)

Coffee, my love

And I'm back on my feet

[Verse 2]

First sun rays sneak through the blinds

I'm staring at the stove

No way I'm talking to the world

Till that sweet stream flows

Cup stains on the counter

You save me, my graceful cup

You bring me back in style

[Pre-Chorus]

One little pour

And the fog moves out

Sweet little jolt

Turns the whole day loud

My pulse kicks in

My head gets clear

I'm finally here

When you're near

[Chorus]

Coffee is all we need

(hey, coffee is all we need)

Coffee, my love

One hot cup and I can breathe

Coffee is all we need
(yeah, coffee is all we need)
Coffee, my love
And I'm back on my feet

[Bridge]

If the morning bites
And the hours crawl
You lift me up
You answer the call

No big speech
Just that steam and heat
One little cup
And I'm complete

[Final Chorus]

Coffee is all we need
(hey, coffee is all we need)
Coffee, my love

One hot cup and I can breathe

Coffee is all we need

(yeah, coffee is all we need)

Coffee, my love

And I'm back on my feet

Coffee is all we need

(coffee is all we need)

Coffee, my love

Now the day feels sweet
