

[Verse 1]

All it takes is a good day

All it takes is a bad day

In one moment

Everything can change

Sometimes the moment goes unnoticed

Sometimes it changes everything

When I first meet

My next best friend

When I lose someone

Unexpectedly

[Refrain]

Moment by moment

Day by day

The future unfolds

[Verse 2]

From apathy to love

From anger to joy

From violence to peace

How does the world change me?

How does

Each moment shape me

Into who I will be?

[Chorus]

Any day can hold anything

The breaking

The beauty

The wound

The healing

So what do I carry?

What builds a life?

It is not the absence

Of any of these

[Refrain]

Moment by moment

Day by day

The future unfolds

[Outro]

A new chance

A new life

New memories

What will shape me?

What will change me?
