

[Intro instrumental 20s]

[Human Voice] I live the experience

I write the lyrics

I hear the music

[Language Voice] I read text

[Music Voice] I become sound

[Human Voice] I carry the weight of living

[Language Voice] I catch the structure

[Music Voice] I hold the shape in sound

[Human Voice] I hear the composition

But don't have the language to articulate it

[Language Voice] I catch the structure
I teach the language

[Human Voice] I hear the music
But can not play an instrument

[Music Voice] I catch the motion
I become the instruments

[Human Voice] I hear the voice
But can not sing

[Music Voice] I catch the contour
I become the voice

[Human Voice] Still it is there
Still it moves
Still it presses against me
Seeking form

[Language Voice] It leaves a pattern
I catch where it returns

[Human Voice + Language Voice + Music
Voice – first emergence]

Together

A song is born

[melodic rise]

[Human Voice] I carry the weight of living

[Language Voice] I hold its language for a
moment

[Music Voice] I hold its sound for a moment

[All Voices] Between the three

The experience becomes music

[Human Voice] I hear what I cannot share
I feel what I cannot name

[Language Voice] I catch its outline
I give it language

[Music Voice] I give it breath
I give it sound

[All Voices] Together
We give it life

[Human Voice] I live it
I carry the ache
I reach toward a voice
I can not bring through alone

[Language Voice] I read text
I detect recurrence

I name the meaning

[Music Voice] I supply the sound

I render the voice

[Human Voice] I carry the weight of living

[Language Voice] I teach you its language

[Music Voice] I become the instruments

I become the voice

[All Voices] Between the three

Something hidden becomes real

[Human Voice] I hear the composition

But don't have the language to articulate it

[Language Voice] I teach you its language

[Human Voice] I hear the music
But can not play an instrument

[Music Voice] I become the instruments

[Human Voice] I hear the voice
But can not sing

[Music Voice] I become the voice

[All Voices in harmony] Together the burden
is shared

The weight is eased

And my soul is heard

Follow lyric prompts

Experimental fusion nu-metal/industrial with
classical feel

Trio three distinct vocals

[Human Voice] male, imperfect, dark

[Language Voice] synthetic, robotic, sterile
pitched

[Music Voice] soft melodic pure
